ABOUT ME

I am developing of applications and sites using React and related technologies (Router, Redux, Thunk, Firebase). I know such programming languages as C ++ and Java. I am interested in computer science in general, I understand the algorithms and design patterns.

SKILLS

React	Redux	Google Maps API
Java Script (ES6+)	Thunk	Firebase
OOP	Jest	Git
HTML	Enzyme	Github
CSS	REST API	Webpack

EDUCATION

2001 - 2006	Kryvyi Rig Technical University (Master of technology)
2008 - 2011	Kryvyi Rig Technical University (Master's degree, business economist)
August 2019	Online course "Udemy: Yuri Bura React + Redux - professional development"
September 2019	Online course "Webformyself: React from scratch to professional"
October 2019	Online course "Dmitry Lavrik: React. Intensive course from professional"
December 2019	Online course "Microsoft: Introduction to React JS"
December 2019	Online course "CS50's: Web programming with Python and Java Script."

EXPERIENCE

Personal website development.(used technologies React, Router, Firebase, Github pages)

[Test task](#) for JS developer position. (used technologies React, Google maps API)

Development the application, wich displays a list of "Новая почта" branches in a selected city. If you select a branch, it displays detailed information and location on the map.(used technologies React, google maps API, API "Новой почты", Redux)

Creating a TODO-list that implements, in addition to the basic functionality, registration and authorization on the server, separation of user rights, change of application language.(used technologies React, REST API)

* Links to all works and source code can be found here: <https://d00dde.github.io/d00dde> in the "Portfolio" section.

ADDITIONAL

English: pre-intermediate
